How To Trade It. Bull Flags: These are continuations patterns, which allow traders to enter an uptrending stock on a pullback. Buy signals trigger when a breakout forms above the upper trend line and proceeds to make new highs. The stop-loss would be set at/under the upper flag trend line.. Bear Flags: This pattern lets traders sell or short-sell into a downtrending stock.

~~The 7 Chart Patterns that Consistently Make Money ...~~

Chart patterns are the foundational building blocks of technical analysis. They repeat themselves in the market time and time again and are relatively easy to spot. These basic patterns appear on every timeframe and can, therefore, be used by scalpers, day traders, swing traders, position traders and investors.
