INTRODUCTION

Weather has a great impact on the structure and functionality of a building, it is of vital importance to choose building materials suitable for the weather.

Building flexibility into the process means that changing climate conditions can be taken into account (Major and O'Grady 2010). The design incorporates pathways for adaptation in

Bookmark File PDF Building To

the future,
which can be
taken as needed
without too much
additional
expense.

Examples of such
'flexible
adaptation
pathways'
include:
