The Renaissance. It is customary to think of the Renaissance as a time of great flowering. There is no doubt that linguistic and philological developments of this period are interesting and significant. Two new sets of data that modern linguists tend to take for granted became available to grammarians during this period: (1) the newly recognized vernacular languages of Europe, for the protection and cultivation of which there subsequently arose national academies and learned institutions ...

Linguistics - The Renaissance | Britannica

The third volume of the History of Linguistics covers the Renaissance and the Early Modern Period. The chapter on the Renaissance (15th and 16th centuries), examines the study of Latin in both the new Humanist and rationalist traditions, along with the foundations of vernacular grammar in the study of Romance, Germanic and Slavic.

History of Linguistics Vol III | Renaissance and Early ...

Linguistics is the scientific study of language. It involves an analysis of language form, language meaning, and language in context. Linguistics began to be studied systematically by the Indian scholar Pāṇini in the 6th century BCE. Beginning around the 4th century BCE, Warring States period China also developed its own grammatical traditions. Aristotle laid the foundation of Western linguistics as part of the study of rhetoric in his Poetics ca. 335 BC. Traditions of Arabic grammar and Hebrew

History of linguistics - Wikipedia

Linguistics, the scientific study of language. The word was first used in the middle of the 19th century to emphasize the difference between a newer approach to the study of language that was then developing and the more traditional approach of philology. The differences were and are largely matters of attitude, emphasis, and purpose.

Linguistics | science | Britannica

The History of Modern Linguistics. by Frederick J. Newmeyer. The modern field of linguistics dates from the beginning of the 19th century. While ancient India and Greece had a remarkable grammatical tradition, throughout most of history linguistics had been the province of philosophy, rhetoric, and literary analysis to try to figure out how human language works.

The History of Modern Linguistics | Linguistic Society of ...

The term linguistics is a product of the 19th century, as are the academic field and the form of enquiry that it designates. This enquiry is however continuous with modes of analysis that date back to ancient times, as practiced in various traditions in Asia and Europe (together with the African parts of the Alexandrian Empire).

History of Linguistics - Linguistics - Oxford Bibliographies

THE GRAMMATICAL TRADITION AND THE RISE OF THE VERNACULARS, RENAISSANCE AND 17th CENTURY By the fall of the Roman Empire, Latin was less and less used and was gradually replaced by vernacular languages (language varieties derived languages from Latin like French, Spanish, and Italian).

Two ideas lie at the heart of this study and its claim that we need a new history of reading: that voices in books can affect us deeply; that printed books can be brought to life with the voice. Voices and Books offers a new history of reading focused on the oral and voice-aware silent reader, rather than the historical reader we have privileged in the last few decades, who is invariably male ...
