Learning and Memory: Basic Principles, Processes, and ...

The basic processes of learning – such as classical and instrumental conditioning and encoding and storage in long-term memory in addition to implicit memory, spatial learning, and remembering in the world outside the laboratory – are reviewed.

Learning and Memory: Basic Principles, Processes, and ...

The basic organization of the book is theoretical, rather than historical or methodological, and there are four broad sections. The first is on coding in memory, and the relations between memory and vision, audition and speech. The second section focuses on short-term memory. The third is loosely organized around the topic of learning.
