~~Project—The ...~~

The impact of an investment, or portfolio of investments, is driven by the impacts of the underlying enterprise (s)/asset (s), plus the contribution that an investor makes to enable those impacts. All enterprises have effects on people and the planet, positive and negative, intended and unintended.

~~How investors manage impact | Impact Management Project~~

The IMP has developed a set of impact classes that group investments based on their impact characteristics. A growing number of investors are motivated to manage the effects of their investment portfolios on people and the planet. These investors vary widely in their intentions and constraints. For example, a passive retail investor looking to mitigate risk by avoiding harmful activities is likely to construct a different investment portfolio to a foundation using its entire

Impact Classes | Impact Management Project

Impact investing refers to investments "made into companies, organizations, and funds with the intention to generate a measurable, beneficial social or environmental impact alongside a financial return". Impact investments provide capital to address social and/or environmental issues. Impact investors actively seek to place capital in businesses, nonprofits, and funds in industries such as renewable energy, basic services including housing, healthcare, and education, micro-finance, and sustainab

~~15 Companies Making a Difference With Impact Investing ...~~

Private equity firms are attracted to impact investment because of an unmet demand for financing solutions to the big problems facing society as well. That presents unique opportunities for both impact and financial returns, and many GPs are using the UN SDGs as a road map. The ability to measure, monitor and communicate outcomes will prove key.
